Hello, Gustavo. How may I help you today?

Gustavo

11:45:17 pm

Hey Brian!

Recently we were asked to provide all emails sent and received via our oldla.org domain

in eml mbox or msg formats

11:46:01 pm

i have been going through the email to export one by one but i get errors exporting on some accounts

please assist.

Hello?

11:47:54 pm

Brian W.

11:48:02 pm

Where are the messages exporting to?

Which application are you using?

Gustavo

11:48:16 pm

so i go into cpanel

then go to email accountas

accounts

then have been going to each account via webmail

Brian W.

11:48:31 pm

You can use Horde mail to export messages in mbox format

Gustavo 11:48:33 pm
using horde to export
but i get an error on gustavo@oldla.org
it exports as an html file
and it does not work.
is there a more efficient way to do this? 11:49:41 pm

Brian W. 11:49:42 pm
Please hold

Gustavo 11:50:27 pm
okay. Thank you.

this is what pops up on chrome when attempting to download mbox
file.

Brian W. 11:55:48 pm
Are you just moving messages to another Cpanel server?

Gustavo 11:55:54 pm
No
im complying with an open records request 11:56:03 pm
we are a none profit
which has been requested to provide documentation to the public

Brian W. 11:57:14 pm
Is the email account accessed from standalone email client such as
Outlook or Thunderbird?

Gustavo 11:57:32 pm
some are but there are connecting to our server
im using the admin account to pull everything together
i tried to go through file manager but it wont let me download it in an 11:58:05 pm
acceptable format to comply with the request

Brian W. 11:58:36 pm
The error will have to be fixed by our system admin

Gustavo 11:58:56 pm
okay. When may i be able to download the files?
